Who May Apply

Student must be the dependent of a guardian presently employed or actively employed in the construction or related industry in the past 12 months within Clark County. The employed guardian must have been employed in the construction industry for a minimum of 5 years. Note: The goal and purpose of the Scholarship is for children of people in the construction industry for at least 5 years. **With the current high unemployment within our industry at this time, we wanted to make sure children of parents that have been in the industry and are currently laid off can still apply so we added the "in the past 12 months".**
